

## **GP Publication of Earnings 2015/2016**

NHS England require that the net earnings of Doctors engaged in the practice is publicised, and the required disclosure is shown below.

However it should be noted that the prescribed method for calculating earnings is potentially misleading because it takes no account of how much time Doctors spend working in the practice, and should not be used to form any judgement about GP earnings, not to make any comparison with any other practice.

All GP Practices are required to declare the mean earnings (e.g. average pay) for GPs working to deliver NHS services to patients at each practice.

The average pay for GPs working in Nettleham Medical Practice during the year ended 30<sup>th</sup> June 2015 was £54,019 before tax and national insurance. This is for 0 full time GPs, 7 part time GPs and 0 locum GPs who worked in the practice for more than 6 months.
