

Nettleham Medical Practice

And Cherry Willingham Branch Surgery Jan/Feb 2016

Repeat Prescriptions

The dispensary are starting to experience a high volume of patients who are coming to collect their repeat prescriptions too early. The practice asks patients to allow 2 working days (not 48 hours) before collecting their prescription. This time is needed to allow for the prescription to be generated, the GP to sign and authorise the prescription, the dispenser to make the prescription and for it to be checked. Thank you for your co-operation in this.

INR Clinic Patient Survey

Thank you to all INR clinic patients who have recently completed satisfaction survey for us. The results were overwhelmingly positive. Full results can be found on our website or on the posters displayed in the waiting room.

Help with Stopping Smoking

As it is the time of year when resolutions are made, the practice would like to remind patients that we hold weekly smoking cessation clinics to which you can self-refer. If you are wishing to stop smoking and would like some help, please contact the practice and book an appointment with either Cathy or Vicky who will be happy to work with you in becoming a non-smoker.

Monthly Early Closures for Training 2016

...
